

PETER KW

Newly Graduated Computer Engineer

INTRODUCTION

I am a recently graduated Bachelor of Science in Computer Engineering with a strong drive to learn and understand new concepts. I constantly seek new challenges that help me grow both personally and professionally. With my knowledge and experience in various programming languages and project work, combined with a willingness to explore new solutions, I am a flexible asset to any team, contributing with dedication, innovation, and reliability. I am able and willing to move to a new location if required.
